*UP Board, Secured an aggregate of **89.6 percentage** in **High School***	*2016 – 2017*

Project Work

Entertainment Hub

- Developed an innovative entertainment website using **HTML, CSS**, **JavaScript** and **Firebase database**, providing a diverse range of services like games, music, memes, and jokes. Users can access premium features such as movies, quizzes, and personalized todo lists after a quick registration.

- The integration of **APIs for quizzes, news, and movies**, along with **Firebase's for seamless signup and login authentication, user-friendly todo list, dynamic chatroom, and a contact feature**, enables users to efficiently manage their daily activities and connect with other website users, enhancing the overall user experience.

Weather Forecaster

A dynamic weather website built with **HTML, CSS**, and **JavaScrip**t, leveraging a **weather API**. Empowering users to access **real- time weather updates based on their location**, as well as providing the ability to **search and view forecasts for any city**. Intuitive design and seamless functionality ensure a user-friendly experience for staying informed about current and upcoming weather conditions.

Portfolio Website

Responsive Portfolio Website developed using **Html,CSS** and **JavaScript** which showcases myskills, experiences and projects.

Jarvis (Voice Assistant)

Developed a voice assistant using **HTML, CSS,** and **JavaScript**, integrating the **Web Speech API** to enable **users to interact vocally with 'Jarvis.'** This innovative assistant streamlines various tasks such as weather updates, news retrieval, and social media access, providing a seamless and efficient user experience.
